CSS DISPLAY PROPERTIES

The CSS `display` property is fundamental for controlling an element's layout and how it interacts with other elements on a webpage. It determines whether an element is treated as a block, inline, grid, flex, or other box type.

INPUT:

```html
<!DOCTYPE html>

<html lang="en">
<head>
    <meta charset="UTF-8">
    <title>Dress Position Example</title>
    <style>
        body {
            font-family: Arial, sans-serif;
            margin: 20px;
        }

        h1, h2 {
            text-align: center;
        }

        /* Container for absolute positioning */
        .container {
            position: relative;
            width: 600px;
            height: 350px;
            margin: 0 auto;
            background-color: #f5f5f5;
            border: 2px solid #ccc;
            padding: 10px;
            im
        }

        /* STATIC */
        .dress-static {
            position: static;
            background-color: lightpink;
            width: 200px;
            padding: 10px;
            margin: 10px auto;
```

```
        text-align: center;
        border-radius: 10px;
    }

    .dress-static img {
        width: 150px;
        height: auto;
    }

    /* RELATIVE */
    .dress-relative {
        position: relative;
        top: 20px;
        left: 30px;
        background-color: lightblue;
        width: 200px;
        padding: 10px;
        margin: 10px auto;
        text-align: center;
        border-radius: 10px;
    }

    .dress-relative img {
        width: 150px;
        height: auto;
    }

    /* ABSOLUTE */
    .dress-absolute {
        position: absolute;
        top: 50px;
        right: 20px;
        background-color: lightgreen;
        width: 180px;
        padding: 10px;
        text-align: center;
        border-radius: 10px;
    }

    .dress-absolute img {
        width: 150px;
        height: auto;
    }

    /* FIXED */
```

```
        .dress-fixed {
            position: fixed;
            bottom: 20px;
            right: 20px;
            background-color: orange;
            width: 180px;
            padding: 10px;
            text-align: center;
            border-radius: 10px;
        }

        .dress-fixed img {
            width: 150px;
            height: auto;
        }

        /* STICKY */
        .dress-sticky {
            position: sticky;
            top: 0;
            background-color: violet;
            width: 200px;
            padding: 10px;
            margin: 0 auto 10px;
            text-align: center;
